## Projects

---

### Finance Analysis for Infrastructure Development

#### Objective:

Analyzed project finance structures for large-scale infrastructure projects using Public-Private Partnerships and Private Finance Initiative models.

#### Key Contributions:

- Assessed funding sources, including bank loans, equity investors, and multilateral credit agencies.
- Evaluated risk allocation between public and private sector partners.
- Analyzed key financial agreements like project contracts, lender syndications, and property documents.
- Studied case examples of oil & gas, transport, and government infrastructure projects.

#### Outcome:

- Developed a financial risk assessment model for project viability.
- Recommended funding structures to optimize cash flow and risk management.

#### Skills Used:

Financial analysis, Risk assessment, Infrastructure finance, Public-Private Partnerships , Project documentation.
